The Current/Future Land Use Map recommends this location as a **High Intensity** Growth Sector.

### **High Intensity:**

A wide range of land uses is appropriate in the high intensity zone, from multi-family to fast food to Class A office space to outdoor display/highway oriented businesses like automotive dealerships, because they will be located in areas where sewer service is readily available and transportation facilities are equipped to handle the traffic.

### Typical Land Uses:

## Master Street Plan/Transportation

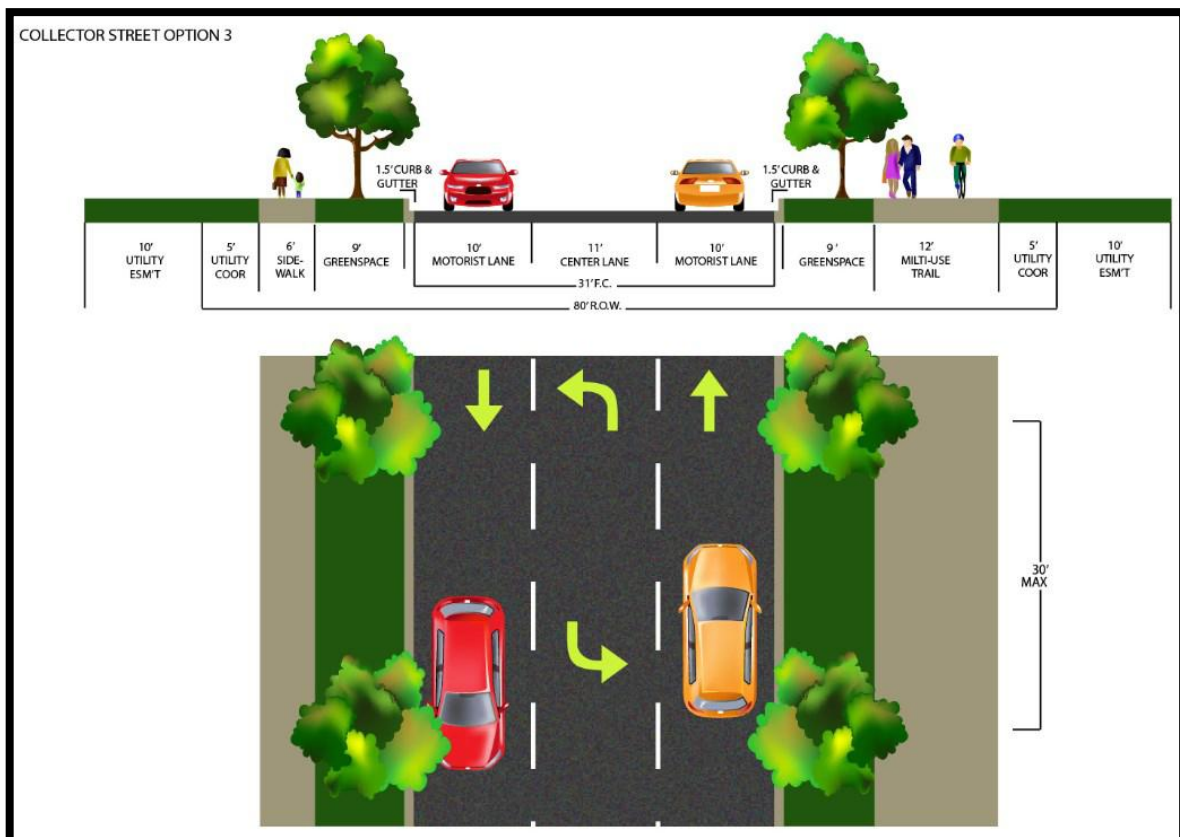

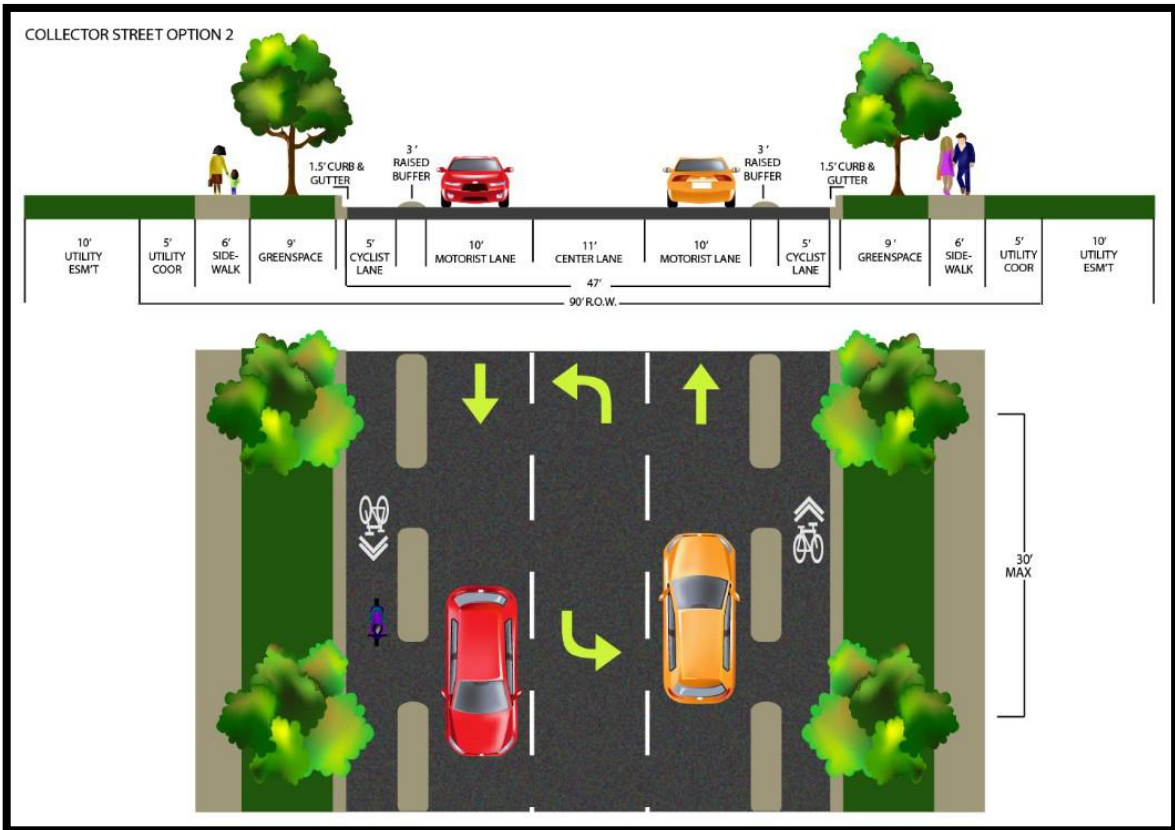

The subject property will be served by Kathleen Street. The Master Street Plan classifies this road as a Collector.

**Collectors** provide for traffic movement between arterials and local streets. They carry moderate traffic volumes over moderate distances and have a higher degree of property access than arterials.

**FUNCTION:** A Collector Street is the traffic connection from Local Streets to Arterials, with the secondary function of providing access to adjoining property. The Collector system should not be continuous but should direct traffic to Arterials. This class of road is generally at a spacing of a quarter mile. At the time of the subdivision, the exact location and additional need for Collectors will be determined by the MAPC upon advice of the City Staff.

**DESIGN:** Cross-section selection shall be based on anticipated traffic volume and speed limit, or traffic impact analysis, if applicable. Design in accordance with AASHTO policy on Geometric design of highways and streets (current edition).

**Approval Criteria- Chapter 117 - Amendments:**

The criteria for approval of a rezoning are set out below. Not all the criteria must be given equal consideration by the MAPC or City Council in reaching a decision. The criteria to be considered shall include, but not be limited to the following.

Criteria	Explanations and Findings	Comply Y/N
<b>(a) Consistency of the proposal with the Comprehensive Plan/Land Use Map</b>	The proposed district rezoning is not consistent with the Adopted Land Use Plan. Residential single-family zones are not included in the high intensity growth sector. The current zone is not consistent with the Land Use Plan either.	
<b>(b) Consistency of the proposal with the purpose of Chapter 117-Zoning.</b>	The proposal will achieve consistency with the purpose of Chapter 117, with compliance of all District standards.	
<b>(c) Compatibility of the proposal with the zoning, uses and character of the surrounding area.</b>	Compatibility is achieved with this rezoning considering the surrounding area includes residential zoning.	
<b>(d) Suitability of the subject property for the uses to which it has been restricted without the proposed zoning map amendment;</b>	Without the proposed zoning map amendment, this property cannot be utilized as a residential subdivision.	
<b>(e) Extent to which approval of the proposed rezoning will detrimentally affect nearby property including, but not limited to, any impact on property value, traffic, drainage, visual, odor, noise, light, vibration, hours of use/operation and any restriction to the normal and customary use of the affected property;</b>	With proper planning there should not be any adverse effects caused by the property.	
<b>(f) Impact of the proposed development on community facilities and services, including those related to utilities, streets, drainage, parks, open space, fire, police, and emergency medical services</b>	Minimal impact if rezoned.	

**Staff Findings:**

**Applicant’s Purpose**

The proposed area is currently classified as “AG-1”, agricultural district. The applicant is applying for a rezoning to allow a residential subdivision at this location.

Rezoning this property is not consistent with the *Jonesboro Comprehensive Plan* and the *Future Land Use Plan*.

**Chapter 117 of the City Code of Ordinances/Zoning defines RS-7 as follows:**

RS-7—Single-family residential district; minimum 6,222 sq. ft. lot required.

**Conclusion:**

The Planning Department Staff finds that the requested zone change submitted for the subject parcel should be evaluated based on the above observations and criteria of Case RZ 25-11; a request to rezone property “AG-1”, agricultural district, to “RS-7”, single-family residential district. The following conditions are recommended:

1. The proposed site shall satisfy all requirements of the City Engineer, all requirements of the current Stormwater Drainage Design Manual and Flood Plain Regulations regarding any new construction.
2. A final site plan subject to all ordinance requirements shall be submitted, reviewed, and approved by the Planning Department, prior to any redevelopment of the property.
