**Re:** Closing of Baswell Street

---

Dear Sirs:

After performing a site visit at Baswell street between Stadium and Brazos, it has been determined that our company does have facilities in the area. Our gas lines are located in the public utility easement. We do not have any objections to the street being closed as long as a utility easement is provided for our facilities that we currently have in place.

Thank you for providing us this opportunity to survey the area. Should you have any further questions or concerns please feel free to call me.

Sincerely,

Gareth L. James

Dear Mr. Ralph Waddell:

The request that you sent to Southwestern Bell Telephone Company to close a portion of Baswell Street between Stadium Boulevard and Brazos Street in Jonesboro has been received. It is being processed through company channels. The answer should be back by September 15, 2000 at the latest barring any unforeseen problem.

The project has been reviewed in the field and the only apparent facilities that we have in this right of way is adjacent to Brazos Street on the east end of this project. This will need an easement to protect these facilities. Other than that provision I see no problems with a concurrence to this plan.

Thank you,

D. L. Culbreath

Re: Street Abandonment

Dear Brian:

City Water and Light has no objection with the abandonment of the portion of Baswell Street located between Stadium Blvd and Brazos Street, with the exception of 10 feet either side of the existing water main and 10 feet either side of the existing sewer main. Please show the easements on the record plat. All being located in Section 21, Township 14 North, Range 4 East, Craighead County, Arkansas.

Sincerely,
