

*City of Jonesboro Metropolitan Area Planning Commission
Staff Report – RZ 10-15: 401 E. Oak – Moring Rezoning
Huntington Building - 900 W. Monroe
For Consideration by the Commission on September 14, 2010*

REQUEST: A recommendation by MAPC to rezone property containing 0.15 acres more or less.

PURPOSE: To rezone a tract of land from R-2 Low Density Multi-Family to CR-1 Commercial/Residence District

**APPLICANT/
OWNER:** Glen & Nance Moring, 5201 Prospect Rd., Jonesboro, AR

LOCATION: 401 E. Oak (Formerly known as 1002 Cobb St.); (Southeast corner of Cobb & Oak Street, Jonesboro, AR)

**SITE
DESCRIPTION:** Tract Size: 0.15 Acres (6,714 sq. ft.)
Frontage: 120 ft. on Oak St.; 55.95 ft. on Cobb St.
Topography: Predominately level
Existing Developmt: Existing Single Family used as Appraisal Business

SURROUNDING CONDITIONS:	<u>ZONE</u>	<u>LAND USE</u>
	North: R-2	St. Bernard Employee Parking Lot
	South: R-2	Rental
	East: R-2	Rental
	West: R-2	Rental

HISTORY: Property was purchased in August, 2006, refurbished and the current business evolved from a home office use in a couple of rooms then expanded to the entire home.

ZONING ANALYSIS: City Planning Staff has reviewed the proposed development and offers the following findings.

COMPREHENSIVE PLAN FUTURE LAND USE MAP

The Future Land Use Map adopted on January 5, 2010 shows this area to be within the Northwest Sector and to be recommended as a High Density Single Family Residential District Area.

This planning area has been highlighted as high density housing and related compatible uses. Typically detached dwellings but includes attached living with scale and massing appropriate to protect the character of the surrounding neighborhood and site constraints and higher density consistent with adopted zoning.

Master Street Plan Review:

The proposed site is located along two local roads on the most current Jonesboro Master Street Plan. The rezoning plat shows the right of ways along Oak St. and Cobb St. less than 30 ft. from center of street.

Approval Criteria- Section 14.44.05, (5a-g) - Amendments:

The criteria for approval of a rezoning are set out below. Not all of the criteria must be given equal consideration by the planning commission or city council in reaching a decision. The criteria to be considered shall include but not be limited to the following:

- (a) Consistency of the proposal with the Comprehensive Plan
- (b) Consistency of the proposal with the purpose of the zoning ordinance.
- (c) Compatibility of the proposal with the zoning, uses and character of the surrounding area;
- (d) Suitability of the subject property for the uses to which it has been restricted without the proposed zoning map amendment;
- (e) Extent to which approval of the proposed rezoning will detrimentally affect nearby property including, but not limited to, any impact on property value, traffic, drainage, visual, odor, noise, light, vibration, hours of use/operation and any restriction to the normal and customary use of the affected property;
- (f) Length of time the subject property has remained vacant as zoned, as well as its zoning at the time of purchase by the applicant; and
- (g) Impact of the proposed development on community facilities and services, including those related to utilities, streets, drainage, parks, open space, fire, police, and emergency medical services.

Aerial Map/ Vicinity Map

Findings:

The applicant has requested a CR-1 Rezoning for the said property to establish a permitted appraisal office. The 1,754 sq. ft. home was purchased in August, 2006, refurbished and the current business evolved from a home office use in a couple of rooms then expanded to the entire home. The owners have no intentions on doing any additional alterations to the structure.

The proposed use has no high volume customer base visiting the site, therefore no adverse impact on the traffic flow in the area should result. Lighting levels should be kept at a minimum spill-off to the abutting residential uses. Staff feels that the Planning Commission recommends the use change to CR-1 L.U.O., Neighborhood Office, and that any future additions or redevelopment of the site be subject to MAPC approval at that time.

Conclusion

The Planning Staff has reviewed the request and all issues regarding impacts on the surrounding area have been considered. Staff recommends approval by the MAPC to Council with a change from R-2 Low Density Multi-family Residential to CR-1, L.U.O. Neighborhood Office Use.

STIPULATION:

1. That the structure shall remain residential in character and any future additions or redevelopment of the site be subject to MAPC approval; and (2) that the lighting photometric levels shall remain at a level of no spill-off towards abutting residential properties.

Respectfully Submitted for Commission Consideration,

Otis T. Spriggs, AICP
Planning Director
Planning & Zoning Department
