

Permit No. 291

STATE OF ARKANSAS
SOIL AND WATER CONSERVATION COMMISSION
PERMIT FOR DAM

The Arkansas Soil and Water Conservation Commission, by virtue of the powers and duties imposed by Act 81 of 1957 as amended hereby issues this permit on this 9th day of October 19 86 to CITY OF JONESBORO for the construction of a dam located within the South 1/2 of Section 6 Township 13N Range 3E County of Craighead on Trib. of Higgenbottom Creek. This permit is issued for a period of Fifty (50) years commencing with the date of issuance; subject however, to the provisions of the aforementioned Act and the following conditions, regulations and restrictions;

1. That the area of the highwater line of the reservoir shall be 55 acres;
2. That the approximate water impounded by the dam shall be 526 acre-feet;
3. That the permittee shall pay annually to the Soil and Water Conservation Commission a fee of \$10.50 on the first day of November ; 1986.
4. That the construction shall begin within a reasonable time and shall be thereafter prosecuted with reasonable diligence until completed;
5. The dam shall be constructed in accordance with the maps, plans and specifications filed with this Commission on the March day of 7th 19 86 ;
6. That this permit does not authorize the impoundment of water on any land other than on land which the applicant for the construction thereof owns, or has the right to occupy during the period for which the permit is issued, nor any other injury or invasion of private property rights;
7. That any representative of the Commission shall have the right at any time to enter upon the land which the dam is built, or is to be built, to inspect work of construction thereof and the operation of the dam after construction;
8. That the building of any dam shall be under the direction of a competent engineer and that he or a competent representative shall be on the ground during the construction and until completion of the dam;
9. That within thirty (30) days after the completion of the work authorized in this permit, the permittee shall file with the Soil and Water Conservation Commission, a statement certifying that the work has been performed in accordance with this permit and approved maps, plans and specifications;
10. That the dam shall be so constructed and operated that there shall be discharged each day from the water impounded by it a quantity of water as that necessary to preserve from time to time below the dam, the flow of the stream involved at a rate approximating the flow which it would maintain if the dam had not been constructed.

DATED THIS 9th DAY OF October 19 86 .
