**HISTORY:** None.

**ZONING ANALYSIS:** City Planning Staff has reviewed the proposed Zone Change and offers the following findings.

**COMPREHENSIVE PLAN/ FUTURE LANDUSE MAP**

The 1996 Comprehensive Plan Future Land Use Map (page 24) shows the area recommended as Low Density Residential. The site adjoins I-63 Bypass and Parker Rd. and it is surrounded by property currently zoned for commercial/industrial activity. This area is pending a restudy on the land use map by the Land Use Advisory Committee.

Pertinent Zoning Ordinance sections include Section 14.44.05(b), 'change in District Boundary', beginning on page 104.

**MAPC RECOMMENDATION:** The Metropolitan Area Planning Commission held a public hearing on September 11, 2007 and voted 5 to 0 to recommend approval of this case to the City Council. Record of proceedings are as follows:

Carlos Wood came forward as proponent for this item. Mr. Meadows would like to break off a small portion of the lot for a single building that could be used as office space. City planner Otis Spriggs stated that this request is to rezone from I-2 to I-1 so that they will be able to use the property for offices and storage. This is a down-zoning of the property to allow those uses which are otherwise not allowed in the existing I-2 District. Staff recommends this request.

A motion was made by Vice Chair George Krennerich, seconded by Joe Tomlinson, that this Rezoning be Recommended to Council. The motion CARRIED by the following vote:

5 Ayes: George Krennerich; Margaret Norris; Lonnie Roberts Jr.; Joe Tomlinson and Marvin Day

Absent: 3 - Ken Collins; Jerry Halsey Jr. and Gary Harpole

**Approval Criteria- Section 14.44.05, (5a-g)- Amendments:**

The criteria for approval of a rezoning are set out below. Not all of the criteria must be given equal consideration by the planning commission or city council in reaching a decision. The criteria to be considered shall include but not be limited to the following:

- (a) Consistency of the proposal with the Comprehensive Plan
- (b) Consistency of the proposal with the purpose of the zoning ordinance.
- (c) Compatibility of the proposal with the zoning, uses and character of the surrounding area;
- (d) Suitability of the subject property for the uses to which it has been restricted without the proposed zoning map amendment;
- (e) Extent to which approval of the proposed rezoning will detrimentally affect nearby property including, but not limited to, any impact on property value, traffic, drainage, visual, odor, noise, light, vibration, hours of use/operation and any restriction to the normal and customary use of the affected property;
- (f) Length of time the subject property has remained vacant as zoned, as well as its zoning at the time of purchase by the applicant; and
- (g) Impact of the proposed development on community facilities and services, including those related to utilities, streets, drainage, parks, open space, fire, police, and emergency medical services.

**Findings:**

This request for rezoning is presented to allow the property to be developed for office/warehousing which is not a permitted general use under the I-2 designation. Staff has no objection to this request to down-classify the property to I-1. In the typical I-2 manufacturing use such a use would be allowed as accessory to the principal use, but because this property will remain a single/individual use, the I-1 is justifiable.

**Conclusion:**

The Planning Department staff and MAPC find that the requested Zone Change submitted by Dale Wood on behalf of Lakeside Contractors, LLC, owner should be reviewed based on the observations above. In the Case of RZ-07-38, a request to rezone property from I-2 to I-1 Limited Industrial District is recommended to the Jonesboro City Council for approval.

Respectfully Submitted for Council Consideration,

Otis T. Spriggs, AICP  
Planning & Zoning Director
