Subject: PS

I neglected to add that it is my sincere hope that the council moves to extend this curfew as we're still seeing a rise in covid cases & really need to utilize all tools we have to fight back. Thank you.  
Judy

Subject: Temporary Covid Curfew

I just wanted to say thank you to Mayor Perrin for stepping up regarding the temporary covid curfew. I understand the point is not to cause harm or inconvenience but to attempt to help curb the rise of virus cases in our area. I have seen first hand what "suggesting" social distancing, wearing a mask or gloves has NOT done. To me, this is a social & moral responsibility. It seems a small price to pay for a short period of time to protect especially the most vulnerable among us. It's been a really long time since we've been called upon to sacrifice anything for the greater good. This is that time. From a christian standpoint, our command is to love one another as ourselves. I believe that is the crux of this curfew, to not only think of ourselves but others as well—our parents, grandparents, the elderly, those with serious health issues. A coke @ 11 PM can't really be more valuable than one's grandmother. Besides, clubs are closed, restaurants are closed, bowling alley same, etc. There really currently isn't a thing other than going to or from work that has to be done on the streets after 10 PM & before 6 AM. I see it as a small price to pay for a short amount of time to aid in the safety of so many. Again, thank you, Mayor Perrin, for what I see as a smart & caring decision for ALL of Jonesboro.
