Sponsors: Engineering

Councilman Vance explained three bids were received. He noted the low bid has a change order, but with the change order the low bid is still \$18,000 lower than the next to lowest bidder. He asked the bid be accepted and moved on to the City Council.

Discussion was held concerning what the building will be used for. Councilman Vance explained the mechanics will work out of this shop, oil changes will take place there, as well as storing of tires. He further explained all maintenance functions will take place in this building. He stated the bids were good and they are able to stay within their budgeted range. Mayor Perrin added the City will be able to build the shop for less than expected.
