Protecting Lives and Property since 1899

Dear MAPC Members,

On behalf of Mayor Harold Perrin and the City of Jonesboro Administration, I am requesting your conceptual approval for a proposed fire station # 5 to be located east and adjacent to 2601 Neely Road (See attached Map). In efforts to make this process proceed efficiently, we are seeking your input and direction on moving forward on this site as a selection.

The Planning Department has advised me that the Planning Commission allows for conceptual reviews in lieu of pending new developments. We would like your input on this site as a new location for a fire station based on the overall planning area. A rezoning is not required, however it has been interpreted that a Conditional Use Approval is required by the MAPC for governmental and public safety uses within the R-1 Single Family Residence.

Sincerely,

Chief Kevin Miller
Jonesboro Fire Department
