

February 22, 1983

The Jonesboro City Council conducted a Public Hearing on February 21, 1983 at 7:00 P.M. for the purpose of hearing those interested in a grant application by the City of Jonesboro for the continued development of Craighead Forest Park.

Mayor Neil Stallings called the meeting to order and at that time, he called on Mr. Mike Cameron, City Engineer, to explain to the 47 citizens who attended the hearing what the priorities were at the park and how the money from the grant is to be used. He explained that most all of the money will be used to provide city water to the site along with road repairs and construction. Also, money is needed to complete 2 softball fields, build public shelters, public restrooms, and complete a walking trail through the park.

At this time, Mayor Stallings spoke about the needs to complete the park so that the citizens of Jonesboro as well as the neighboring cities could enjoy the benefits of the park.
