Approval Criteria- Chapter 117 - Amendments:

The criteria for approval of a rezoning are set out below. Not all of the criteria must be given equal consideration by the MAPC or City Council in reaching a decision. The criteria to be considered shall include, but not be limited to the following list on the next page.

Criteria	Explanations and Findings	Comply Y/N
(a) Consistency of the proposal with the Comprehensive Plan/Land Use Map	The proposed district rezoning is consistent with the Adopted Land Use Plan, which was categorized as a High Intensity Growth Sector.	
(b) Consistency of the proposal with the purpose of Chapter 117-Zoning.	The proposal will achieve consistency with the purpose of Chapter 117, with compliance of all District standards.	
(c) Compatibility of the proposal with the zoning, uses and character of the surrounding area.	Compatibility is achieved with this rezoning considering there are C-3 General Commercial Zoning in this area.	
(d) Suitability of the subject property for the uses to which it has been restricted without the proposed zoning map amendment;	Without the proposed zoning map amendment, this property will not develop as residential. There is a current building here that is Legal Nonconforming used as commercial in the past. Without this rezoning, many things in the Commercial Spectrum could not go here.	
(e) Extent to which approval of the proposed rezoning will detrimentally affect nearby property including, but not limited to, any impact on property value, traffic, drainage, visual, odor, noise, light, vibration, hours of use/operation and any restriction to the normal and customary use of the affected property;	No detrimental or adverse impacts are predicted, if proper planning is implemented.	
(f) Impact of the proposed development on community facilities and services, including those related to utilities, streets, drainage, parks, open space, fire, police, and emergency medical services	Minimal impact if rezoned due to the fact that businesses and residential currently exist in this area.	

Staff Findings:

Applicant’s Purpose

The proposed area is currently classified as an R-1 Single-Family Residential Zone. The applicant owns the building and land to the east of this property. This land is legal non-conforming and wants to bring it up to proper zoning.

Rezoning this property is consistent with the *Jonesboro Comprehensive Plan* and the *Future Land Use Plan*. Rezoning makes sense considering there are already single family homes located in the area.

Chapter 117 of the City Code of Ordinances/Zoning defines C-3 General Commercial District as follows:

Definition of C-3 General Commercial District - The purpose of this district is to provide appropriate locations for commercial and retail uses, which are convenient and serve the needs of the traveling public. The district also provides locations for limited amounts of merchandise, equipment and material being offered for retail sale that are more suitable for storage and display outside the confines of an enclosed structure. Appropriate locations for this district are along heavily traveled Arterial Street. Development of groupings of facilities shall be encouraged, as opposed to less desirable strip commercial.

Conclusion:

1. That the proposed site shall satisfy all requirements of the City Engineer, all requirements of the current Stormwater Drainage Design Manual and Flood Plain Regulations regarding any new construction.
2. A final site plan subject to all ordinance requirements shall be submitted, reviewed, and approved by the Planning Department, prior to any redevelopment of the property.
3. Any change of use shall be subject to Planning Department approval in the future.
