

IV. AGREEMENT:

WHEREAS, authority for the control of the locations and types of all traffic control devices on State Highways has been delegated to the State Highway Commission by Section 109(d), Title 23, U.S. Code, and Arkansas Statutes 75-501, 75-502, and 75-503; and

WHEREAS, the State Highway Commission has officially adopted a Manual and Specifications for a uniform system of traffic control devices, and by Minute Order 90-007 of January 24, 1990 has implemented these statutes relative to the operation of traffic control devices by local governments;

NOW THEREFORE, in accordance with these authorizations, the following agreement is made between the City (applicant) and the Highway Department:

1. The City agrees to install, operate and maintain the signals at no cost to the Department.
2. No changes will be made in the controller dial settings, cycle length and operation of the signals as noted in this Permit without approval of the Highway Department. However, periodic review of the operation will be made by the Department.
3. There will be a minimum of two signal faces per roadway approach or as noted on the attached sketch.
4. The installation and all materials used will be in conformance with the Institute of Traffic Engineers Specifications, the Manual on Uniform Traffic Control Devices and any specifications supplied by the Highway Department.
5. The City will save the Highway Department harmless from any and all damage claims that may arise during the period the control devices are being installed or in effect.
6. If the installation has not been completed or is not underway by the 16th day of November, 1993, this Permit shall be null and void.
