CLIENT: City of Jonesboro 515 W Washington, Jonesboro AR 72401

Re: Property: 1506 Wofford St Jonesboro, AR 72401-5077 Borrower: CLIENT: City of Jonesboro File No.:

Pursuant to your request, I have prepared a appraisal report of the property captioned in the "Summary of Salient Features" which follows. As you have requested, I have prepared this report in accordance with most area lenders. To the best of my knowledge, this report conforms to the current requirements prescribed by the Uniform Standards of Professional Appraisal Practice of the Appraisal Standards Board of the Appraisal Foundation (as required by the Financial Institutions Reform, Recovery and Enforcement Act (FIRREA).

The accompanying report is based on a site inspection of improvements, investigation of the subject neighborhood area of influence, and review of sales, cost, and income data for similar properties. This appraisal has been made with particular attention paid to applicable value-influencing economic conditions and has been processed in accordance with nationally recognized appraisal guidelines.

The value conclusions stated herein are as of the effective date as stated in the body of the appraisal, and contingent upon the certification and limiting conditions attached. The person (s) signing this report have the knowledge and experience to complete this assignment competently. Please do not hesitate to contact me or any of my staff if we can be of additional service to you.

Sincerely 16 : Gloson, CG0247  $\otimes G$ SI Cal Sec. 31

Gramm-Leach-Bliley (GLB) Act Compliance/Intended User:

This report has been prepared for the Lender/Client as shown on page one of the report. The purpose of the report is to aid in determining the suitability of the subject property as collateral for a mortgage. The borrower is neither the appraiser's client or the intended user of this report. In accordance with the GLB Act, no non-public information regarding the borrower and/or the subject property has been conveyed by the appraiser to the Lender/Client only, except the following when/if they are observed: Differences with public records regarding dwelling size, dwelling condition, or areas finished that are not shown in public records; any safety or environmental problems/conditions observed; whether or not the subject property is owner occupied, vacant, or tenant occupied. Zoning compliance will be reported. When a property is rented, actual rent and lease information will be reported to the Lender/Client. Any apparent encroachments, easements, functional and external obsolescence will also be reported to the Lender/Client.

I have not checked the land records for recorded easements & did not note any apparent adverse easements or encroachments. Any easements, encroachments, restrictions, covenants, etc uncovered through a title search, legal opinion, or property survey should be submitted to the appraiser for consideratio

Comments												

x	_There is no apparent visible or documented evidence known to the appraiser of any USTs on the property nor any known historical use of the property that would
	likely have had USTs.

USTs (UNDERGROUND STORAGE TANKS)

- x There are no <u>apparent</u> petroleum storage and/or delivery facilities (including gasoline stations or chemical manufacturing plants) located on adjacent properties (except as reported in Comments below).
- There are <u>apparent</u> signs of USTs existing now or in the past on the subject property. It is recommended that an inspection by a qualified UST inspector be obtained to determine the location of any USTs together with their condition and proper registration if they are active; and if they are inactive, to determine whether they were deactivated in accordance with sound industry practices.
- \_X \_\_\_\_ The value estimated in this appraisal is based on the assumption that any functioning USTs are not leaking and are properly registered and that any abandoned USTs are free from contamination and were properly drained, filled and sealed.

Comments

#### NEARBY HAZARDOUS WASTE SITES

X There are no apparent Hazardous Waste Sites on the subject property or nearby the subject property (except as reported in Comments below). Hazardous Waste Site search by a trained environmental engineer may determine that there is one or more Hazardous Waste Sites on or in the area of the subject property.

\_X \_\_\_\_ The value estimated in this appraisal is based on the assumption that there are no Hazardous Waste Sites on or nearby the subject property that negatively affect the value or safety of the property.

Comments

#### UREA FORMALDEHYDE (UFFI) INSULATION

N/A All or part of the improvements were constructed before 1982 when UREA foam insulation was a common building material. The only way to be certain that the property is free of UREA formaldehyde is to have it inspected by a qualified UREA formaldehyde inspector.

N/A The improvements were constructed after 1982. Noapparent UREA formaldehyde materials were observed (except as reported in Comments below).

N/A\_The value estimated in this appraisal is based on the assumption that there is no significant UFFI insulation or other UREA formaldehyde material on the property.

Comments

<u>N/A</u> All or part of the improvements were constructed before 1980 when Lead Paint was a common building material. There is napparent visible or known documented evidence of peeling or flaking Lead Paint on the floors, walls or ceilings (except as reported in Comments below). The only way to be certain that the property is free of surface or subsurface Lead Paint is to have it inspected by a qualifed inspector.

LEAD PAINT

N/A The improvements were constructed after 1980. Noapparent Lead Paint was observed (except as reported in Comments below).

N/A\_The value estimated in this appraisal is based on the assumption that there is no flaking or peeling Lead Paint on the property.

Comments

#### AIR POLLUTION

- x There are no apparent signs of Air Pollution at the time of the inspection nor were any reported (except as reported in Comments below). The only way to be certain that the air is free of pollution is to have it tested.
- x \_\_\_\_ The value estimated in this appraisal is based on the assumption that the property is free of Air Pollution.

Comments

#### WETLANDS/FLOOD PLAINS

<u>×</u> The site does not contain any <u>apparent</u> Wetlands/Flood Plains (except as reported in Comments below). The only way to be certain that the site is free of Wetlands/ Flood Plains is to have it inspected by a qualified environmental professional.

The value estimated in this appraisal is based on the assumption that there are no Wetlands/Flood Plains on the property (except as reported in Comments below).

Comments

#### MISCELLANEOUS ENVIRONMENTAL HAZARDS

 Excess Noise	
Radiation + Electromagnetic Radiation	
 Light Pollution	
 Waste Heat	
 Acid Mine Drainage	
 Agricultural Pollution	
 Geological Hazards	
 Nearby Hazardous Property	
 Infectious Medical Wastes	
 Pesticides	
Others (Chemical Storage + Storage Drums, Pipelines, etc.)	

Ine value estimated in this appraisal is based on the assumption that there are no Miscellaneous environmental Hazards (except those reported above) that would negatively affect the value of the property.

When any of the environmental assumptions made in this addendum are not correct, the estimated value in this appraisal may not be valid.

# **MULTI-PURPOSE SUPPLEMENTAL ADDENDUM** FOR FEDERALLY RELATED TRANSACTIONS

Bob Gibson Appraisal Service

Borrower/Client CLIENT: City of Jonesboro					
Property Address 1506 Wofford St					
City Jonesboro	County Craighead	State AR	Zip Code 72401-5077		
Lender CLIENT: City of Jo	Lender CLIENT: City of Jonesboro				

This Multi-Purpose Supplemental Addendum for Federally Related Transactions was designed to provide the appraiser with a convenient way to comply with the current appraisal standards and requirements of the Federal Deposit Insurance Corporation (FDIC), the Office of the Comptroller of Currency (OCC), The Office of Thrift Supervision (OTS), the Resolution Trust Corporation (RTC), and the Federal Reserve.

#### This Multi-Purpose Supplemental Addendum is for use with any appraisal. Only those statements which have been checked by the appraiser apply to the property being appraised.

	PURPOSE & FUNCTION OF APPRAISAL
	urpose of the appraisal is to estimate the market value of the subject property as defined herein. The function of the appraisal is to assist the above-named er in evaluating the subject property for lending purposes. This is a federally related transaction.
$\boxtimes$	EXTENT OF APPRAISAL PROCESS
$\boxtimes$	The appraisal is based on the information gathered by the appraiser from public records, other identified sources, inspection of the subject property and neighborhood, and selection of comparable sales within the subject market area. The original source of the comparables is shown in the Data Source section of the market grid along with the source of confirmation, if available. The original source is presented first. The sources and data are considered reliable. When conflicting information was provided, the source deemed most reliable has been used. Data believed to be unreliable was not included in the report nor used as a basis for the value conclusion.
	The Reproduction Cost is based on
	Physical depreciation is based on the estimated effective age of the subject property. Functional and/or external depreciation, if present, is specifically addressed in the appraisal report or other addenda. In estimating the site value, the appraiser has relied on personal knowledge of the local market. This knowledge is based on prior and/or current analysis of site sales and/or abstraction of site values from sales of improved properties.
$\boxtimes$	The subject property is located in an area of primarily owner-occupied single family residences and the Income Approach is not considered to be meaningful. For this reason, the Income Approach was not used.
	The Estimated Market Rent and Gross Rent Multiplier utilized in the Income Approach are based on the appraiser's knowledge of the subject market area. The rental knowledge is based on prior and/or current rental rate surveys of residential properties. The Gross Rent Multiplier is based on prior and/or current analysis of prices and market rates for residential properties.
	For income producing properties, actual rents, vacancies and expenses have been reported and analyzed. They have been used to project future rents, vacancies and expenses.
$\boxtimes$	SUBJECT PROPERTY OFFERING INFORMATION

2

**DEFINITION OF MARKET VALUE:** The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he considers his own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions\* granted by anyone associated with the sale.

\* Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgement.

### STATEMENT OF LIMITING CONDITIONS AND APPRAISER'S CERTIFICATION

**CONTINGENT AND LIMITING CONDITIONS:** The appraiser's certification that appears in the appraisal report is subject to the following conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership.

2. The appraiser has provided a sketch in the appraisal report to show approximate dimensions of the improvements and the sketch is included only to assist the reader of the report in visualizing the property and understanding the appraiser's determination of its size.

3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in the appraisal report whether the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.

4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand.

5. The appraiser has estimated the value of the land in the cost approach at its highest and best use and the improvements at their contributory value. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used.

6. The appraiser has noted in the appraisal report any adverse conditions (such as, needed repairs, depreciation, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the normal research involved in performing the appraisal. Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any hidden or unapparent conditions of the property or adverse environmental conditions (including the presence of hazardous wastes, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report must not be considered as an environmental assessment of the property.

7. The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.

8. The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice.

9. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that completion of the improvements will be performed in a workmanlike manner.

10. The appraiser must provide his or her prior written consent before the lender/client specified in the appraisal report can distribute the appraisal report (including conclusions about the property value, the appraiser's identity and professional designations, and references to any professional appraisal organizations or the firm with which the appraiser is associated) to anyone other than the borrower; the mortgagee or its successors and assigns; the mortgage insurer; consultants; professional appraisal organizations; any state or federally approved financial institution; or any department, agency, or instrumentality of the United States or any state or the District of Columbia; except that the lender/client may distribute the property description section of the report only to data collection or reporting service(s) without having to obtain the appraiser's prior written consent. The appraiser's written consent and approval must also be obtained before the appraisal can be conveyed by anyone to the public through advertising, public relations, news, sales, or other media.

#### **APPRAISER'S CERTIFICATION:** The Appraiser certifies and agrees that:

1. I have researched the subject market area and have selected a minimum of three recent sales of properties most similar and proximate to the subject property for consideration in the sales comparison analysis and have made a dollar adjustment when appropriate to reflect the market reaction to those items of significant variation. If a significant item in a comparable property is superior to, or more favorable than, the subject property, I have made a negative adjustment to reduce the adjusted sales price of the comparable and, if a significant item in a comparable property is inferior to, or less favorable than the subject property, I have made a positive adjustment to increase the adjusted sales price of the comparable.

2. I have taken into consideration the factors that have an impact on value in my development of the estimate of market value in the appraisal report. I have not knowingly withheld any significant information from the appraisal report and I believe, to the best of my knowledge, that all statements and information in the appraisal report are true and correct.

3. I stated in the appraisal report only my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the contingent and limiting conditions specified in this form.

4. I have no present or prospective interest in the property that is the subject to this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or the estimate of market value in the appraisal report on the race, color, religion, sex, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property.

5. I have no present or contemplated future interest in the subject property, and neither my current or future employment nor my compensation for performing this appraisal is contingent on the appraised value of the property.

6. I was not required to report a predetermined value or direction in value that favors the cause of the client or any related party, the amount of the value estimate, the attainment of a specific result, or the occurrence of a subsequent event in order to receive my compensation and/or employment for performing the appraisal. I did not base the appraisal report on a requested minimum valuation, a specific valuation, or the need to approve a specific mortgage loan.

7. I performed this appraisal in conformity with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place as of the effective date of this appraisal, with the exception of the departure provision of those Standards, which does not apply. I acknowledge that an estimate of a reasonable time for exposure in the open market is a condition in the definition of market value and the estimate I developed is consistent with the marketing time noted in the neighborhood section of this report, unless I have otherwise stated in the reconciliation section.

8. I have personally inspected the interior and exterior areas of the subject property and the exterior of all properties listed as comparables in the appraisal report. I further certify that I have noted any apparent or known adverse conditions in the subject improvements, on the subject site, or on any site within the immediate vicinity of the subject property of which I am aware and have made adjustments for these adverse conditions in my analysis of the property value to the extent that I had market evidence to support them. I have also commented about the effect of the adverse conditions on the marketability of the subject property.

9. I personally prepared all conclusions and opinions about the real estate that were set forth in the appraisal report. If I relied on significant professional assistance from any individual or individuals in the performance of the appraisal or the preparation of the appraisal report, I have named such individual(s) and disclosed the specific tasks performed by them in the reconciliation section of this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in the report; therefore, if an unauthorized change is made to the appraisal report, I will take no responsibility for it.

**SUPERVISORY APPRAISER'S CERTIFICATION:** If a supervisory appraiser signed the appraisal report, he or she certifies and agrees that: I directly supervise the appraiser who prepared the appraisal report, have reviewed the appraisal report, agree with the statements and conclusions of the appraiser, agree to be bound by the appraiser's certifications numbered 4 through 7 above, and am taking full responsibility for the appraisal and the appraisal report.

# **APPRAISAL AND REPORT IDENTIFICATION**

This Appraisal Report is <u>one</u> of the following types:

Self Contained	(A written report prepared under Standards Rule 2-2(a), persuant to the Scope of Work, as disclosed elsewhere in this report.)
🛛 Summary	(A written report prepared under Standards Rule 2-2(b), persuant to the Scope of Work, as disclosed elsewhere in this report.)
Restricted Use	(A written report prepared under Standards Rule 2-2(c), persuant to the Scope of Work, as disclosed elsewhere in this report, restricted to the stated intended use by the specified client or intended user.)

# **Comments on Standards Rule 2-3**

I certify that, to the best of my knowledge and belief:

- the statements of fact contained in this report are true and correct.

- I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- I have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.

- my engagement in this assignment was not contingent upon developing or reporting predetermined results.

- my compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.

- my analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice.

--- I have made a personal inspection of the property that is the subject of this report. (If more than one person signs this certification, the certification must clearly specify which individuals did and which individuals did not make a personal inspection of the appraised property.)

- no one provided significant real property appraisal assistance to the person signing this certification. (If there are exceptions, the name of each individual providing significant real property appraisal assistance must be stated.)
