TO WHOM IT MAY CONCERN:

We own property across the road from the 8.76 acres located at Rook Road and Richardson Road that is up for rezoning.

We are not opposed to the rezoning of this property.

Most of the property in this area is located in the flood zone, and is not suitable for residential.

At some point in time when we decide to sell our property, I am sure it will have to be rezoned - out of residential.
