AN ORDINANCE TO AMEND ORDINANCE 46-70 TO EXEMPT CITY APPROVED SHOOTING RANGES FROM THE LOUD NOISE ORDINANCE

BE IT ORDAINED by the City Council for the City of Jonesboro, Arkansas that:

WHEREAS, growth within the City of Jonesboro has led to the opportunity to have both publicly and privately owned shooting ranges locate to the City. The very use and nature of these ranges will create noise within the City. The council and planning commission are cognizant of this when determining the best fit for the location of said facilities and all possible consideration is given to neighboring homes and/or businesses at the time these ranges are approved.

WHEREAS, the City Council of the City of Jonesboro, Arkansas has determined that it is in the best interest of the citizens of the City to amend the ordinance on loud noises in the City of Jonesboro to exempt any approved shooting ranges from Ordinance 46-70.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF JONESBORO, ARKANSAS:

SECTION ONE: That Ordinance 46-70 shall hereby be amended to add the following section:

(d) That none of the terms or prohibitions of this ordinance shall apply to or be enforced against any noise resulting from the normal operation of a public or privately owned shooting range facility which has been approved by the City of Jonesboro. A range is in compliance with this ordinance when operated in accordance with the terms of the City's approval and any required permits. The intent of this provision is that normal operation of approved ranges will qualify for the immunity from nuisance and noise pollution suits as provided by Ark Code Ann. § 16-105-502.

## **City of Jonesboro Activity Report**

July 2016

Vector Disease Control, Inc. (VDCI) provides a proven, scientific approach to mosquito control for the city of Jonesboro. VDCI's operations include larval and adult mosquito surveillance followed by the application of larvicides and adulticides. In addition, our office responds to service requests from the public.

### **Mosquito Surveillance**

VDCI has utilized a total of thirteen (13) New Jersey light traps placed in residential and recreational areas throughout Jonesboro during this reporting period. These traps collected an average of 100.6 mosquitoes per trap night (5,229 total mosquitoes) during this time. There have been a total of 2 mosquito species collected, with *Anopheles quadrimaculatus* being the most predominant species.

### **Larval Control Activity**

Permanent water, flood water, artificial containers, and drainage system sites are inspected for larval mosquito breeding on a regular basis. In total, 91 sites inspected with 5 sites having mosquito larvae present. As a result of these inspections 68.0 ounces of the larvicide Aquabac 200G was applied to these mosquito breeding sites. Additionally, VDCI is continuing to eliminate breeding habitats for artificial container mosquitoes by targeting bird baths, buckets, tires, etc.

## ADULT MOSQUITO CONTROL ACTIVITY

In response to community events and mosquito surveillance data, VDCI applied adulticide (23) truck night for this reporting period. All adulticide ULV applications were made with truck-mounted ULV units equipped with GPS-enabled monitors. During this report period, a total of 1,690.7 spray miles (62,538.7 .acres) were treated with a total of 432.8 gallons of adulticide in residential and recreational areas. In addition to routine truck spraying, VDCI has responded to 91 service request and adulticided all parks and special events during this month.

### **Summary**

During this reporting period, VDCI has continued to provide exceptional control of larval and adult mosquito populations. VDCI will remain diligent in our surveillance and control activities to prevent a significant increase in the mosquito population. Based on recent weather conditions VDCI expects the trend of routine adulticiding and larviciding to continue. However, if VDCI detects a significant rise in the mosquito population we will increase larval and adult control. As always, VDCI welcomes residents with any mosquito-related questions or concerns to contact VDCI's Jonesboro office directly at 870.933.6939.
