6. Other Business

Councilmember David McClain asked Chairman Mitch Johnson if someone from Vector Mosquito Control planned to give an update on how the spraying season is going. Mr. Johnson ask the Mayor to reach out to Vector to see if they would come to next month's meeting to give a report. Mayor Harold Copenhaver made a note to reach out to them.

Councilmember Chris Moore said that he and Councilmember Ann Williams were talking about the barricades that have just been placed at the old Citizen Bank Building down town. Mr. Moore wanted to know if a safety concern had been reported. Chairman Johnson said that he was not aware of any safety hazards. Mayor Copenhaver stated that there was an event down there over the weekend and that maybe they are left over from that. Mr. Moore indicated that they had just been placed there. Fire Chief Kevin Miller came up to the podium and explained that they had just gotten a call right before the meeting about some of the windows on the building not being stable. We notified the owners of the facility and as a precaution they set barricades up. Mr. Moore stated that if this is not something that can be resolved quickly that there would need to be a better type of barricade put in place, maybe something more along the lines of a construction safety fence. The barricades that are there now were blowing over when I came by there coming to this meeting. Councilmember Chris Gibson explained that he also thought that the Street Department was going to be up there to close the back parking lot to that facility as well. Mr. Moore explained that there are several events coming up down town in the next few weeks and we need to make sure that it is as safe as it can be around that facility.

NOTICE TO EMPLOYER GARNISHEE

Failure to answer this Writ within 30 DAYS or failure or refusal to answer any Interrogatories attached hereto shall result in the Court entering a Judgment against you and you becoming PERSONALLY LIABLE for the amount of the non-exempt wages owed the debtor-employee on the date you were served this writ as provided by Arkansas Code Annotated 16-110-407.

The amount of wages available for withholding for this Judgment and cost is subject to certain prior claims. Under Arkansas law, income withholding for child support has a priority over all other legal processes. Under federal law, the total amount to be withheld cannot exceed the maximum amount allowed under 303 (b).

NOTICE-EFFECTIVE JULY 27, 1995

Under the provisions of ACT 276 of 1995, the service of this garnishment on you constitutes a lien on salaries, wages, or other compensations due the defendant at the time you are served with this writ of garnishment and further constitutes a lien on subsequent earnings until the total of the judgment and costs is paid or satisfied, or until the employment relationship is terminated, or the judgment is vacated or modified.

NOTICE TO DEFENDANT(S):

NOTICE TO DEFENDANT OF YOUR RIGHT TO KEEP WAGES, MONEY, AND OTHER PROPERTY FROM BEING GARNISHED

The Writ of Garnishment or Writ of Execution delivered to you with this Notice means that wages, money, or other property belonging to you has been garnished in order to pay a court judgment against you. HOWEVER, YOU MAY BE ABLE TO KEEP YOUR MONEY OR PROPERTY FROM BEING TAKEN, SO READ THIS NOTICE CAREFULLY.

State and federal laws say that certain money and property may not be taken to pay certain types of court judgments. Such money or property is said to be 'exempt' from garnishment.

For example under the Arkansas Constitution and state law, you will be able to claim as exempt all or part of your wages or other personal property.

As another example, under federal law the following are also exempt from garnishment:

Social Security, SSI, Veteran's benefits, Temporary Assistance for Needy Families, unemployment compensation, and workers' compensation.

You have a right to ask for a court hearing to claim these or other exemptions. If you need legal assistance to help you try to save your wages or property from being garnished, you should see a lawyer. If you can't afford a private lawyer, contact your local bar association or ask the clerk's office about any legal services program in your area.

City of Jonesboro, AR

City of Jonesboro Activity Report

June 2021

Vector Disease Control, Inc. (VDCI) provides a proven, scientific approach to mosquito control for the City of Jonesboro. VDCI's operations include larval and adult mosquito surveillance followed by the application of larvicides and adulticides. In addition, our office responds to service requests from the public.

Mosquito Surveillance

VDCI has utilized a total of **(13)** New Jersey light traps placed in residential and recreational areas throughout Jonesboro. These traps collected an average of **24.55** mosquito per trap night (**1272** total mosquitoes) during this time. There have been a total of **3** mosquito species collected, with *Annophles Quadrimaculatus* being the most predominant species.

Larval Control Activity

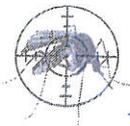

Permanent water, flood water, artificial containers, and drainage system sites are inspected for larval mosquito breeding on a regular basis. In total, **46** sites inspected with 6 sites having mosquito larvae present. As a result of these inspections, 114 ounces of granular BTI (Aquabac 200g) was applied to these mosquito breeding sites. Additionally, VDCI is continuing to eliminate breeding habitat for artificial container mosquitoes by targeting bird baths, buckets, tires etc.

Adult Mosquito Control Activity

In response to community events and mosquito surveillance data, VDCI applied the adulticide on **41** truck routes for this reporting period. All adulticide ULV applications were made with truck-mounted ULV units equipped with GPS-enabled monitors. During this report period, a total of **2,013.40** spray miles (**73,206.90 acres**) were treated with a total of **448.00** gallons of adulticide in residential and recreational areas. In addition to routine truck spraying, VDCI has responded to **40** service request and adulticided all parks, and any special events during the month.

Summary

Throughout this reporting period, VDCI has continued to provide exceptional control of larval and adult mosquito populations. VDCI will remain diligent in our surveillance and control activities to prevent a significant increase in the mosquito population. If VDCI detects a significant rise in the mosquito population we will increase larval and adult control. As always, VDCI welcomes residents with any mosquito-related questions or concerns to contact VDCI's Jonesboro office directly at 855.933.6939.

City of Jonesboro Activity Report

July 2021

Vector Disease Control, Inc. (VDCI) provides a proven, scientific approach to mosquito control for the City of Jonesboro. VDCI's operations include larval and adult mosquito surveillance followed by the application of larvicides and adulticides. In addition, our office responds to service requests from the public.

Mosquito Surveillance

VDCI has utilized a total of **(13)** New Jersey light traps placed in residential and recreational areas throughout Jonesboro. These traps collected an average of **58.87** mosquito per trap night (**2275** total mosquitoes) during this time. There have been a total of **2** mosquito species collected, with **Annophles Quadrimaculatus** being the most predominant species.

Larval Control Activity

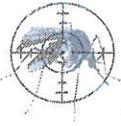

Permanent water, flood water, artificial containers, and drainage system sites are inspected for larval mosquito breeding on a regular basis. In total, **12** sites inspected with **6** sites having mosquito larvae present. As a result of these inspections, **304** ounces of granular BTI (Aquabac 200g) was applied to these mosquito breeding sites. Additionally, VDCI is continuing to eliminate breeding habitat for artificial container mosquitoes by targeting bird baths, buckets, tires etc.

Adult Mosquito Control Activity

In response to community events and mosquito surveillance data, VDCI applied the adulticide on **61** truck routes for this reporting period. All adulticide ULV applications were made with truck-mounted ULV units equipped with GPS-enabled monitors. During this report period, a total of **2,231.70** spray miles (**84,751.10 acres**) were treated with a total of **534.00** gallons of adulticide in residential and recreational areas. In addition to routine truck spraying, VDCI has responded to **105** service request and adulticided all parks, and any special events during the month.

Summary

Throughout this reporting period, VDCI has continued to provide exceptional control of larval and adult mosquito populations. VDCI will remain diligent in our surveillance and control activities to prevent a significant increase in the mosquito population. If VDCI detects a significant rise in the mosquito population we will increase larval and adult control. As always, VDCI welcomes residents with any mosquito-related questions or concerns to contact VDCI's Jonesboro office directly at 855.933.6939.

City of Jonesboro Activity Report

August 2021

Vector Disease Control, Inc. (VDCI) provides a proven, scientific approach to mosquito control for the City of Jonesboro. VDCI's operations include larval and adult mosquito surveillance followed by the application of larvicides and adulticides. In addition, our office responds to service requests from the public.

Mosquito Surveillance

VDCI has utilized a total of **(13)** New Jersey light traps placed in residential and recreational areas throughout Jonesboro. These traps collected an average of **56.202** mosquito per trap night (**1,419** total mosquitoes) during this time. There have been a total of **2** mosquito species collected, with **Annophles Quadrimaculatus** being the most predominant species.

Larval Control Activity

Permanent water, flood water, artificial containers, and drainage system sites are inspected for larval mosquito breeding on a regular basis. In total, **9** sites inspected with **0** sites having mosquito larvae present. As a result of these inspections, **0.00** ounces of granular BTI (Aquabac 200g) was applied to these mosquito breeding sites. Additionally, VDCI is continuing to eliminate breeding habitat for artificial container mosquitoes by targeting bird baths, buckets, tires etc.

Adult Mosquito Control Activity

In response to community events and mosquito surveillance data, VDCI applied the adulticide on **33** truck routes for this reporting period. All adulticide ULV applications were made with truck-mounted ULV units equipped with GPS-enabled monitors. During this report period, a total of **1,400.3** spray miles (**50,916.10 acres**) were treated with a total of **273.50** gallons of adulticide in residential and recreational areas. In addition to routine truck spraying, VDCI has responded to **46** service request and adulticided all parks, and any special events during the month.

Summary

Throughout this reporting period, VDCI has continued to provide exceptional control of larval and adult mosquito populations. VDCI will remain diligent in our surveillance and control activities to prevent a significant increase in the mosquito population. If VDCI detects a significant rise in the mosquito population we will increase larval and adult control. As always, VDCI welcomes residents with any mosquito-related questions or concerns to contact VDCI's Jonesboro office directly at 855.933.6939.
