## APPROVAL CRITERIA- CHAPTER 117 – AMENDMENTS

The criteria for approval of a rezoning are set out below. Not all of the criteria must be given equal consideration by the MAPC or City Council in reaching a decision. The criteria to be considered shall include, but not be limited to the following:

Criteria	Explanations and Findings	Comply Y/N
(a) Consistency of the proposal with the Comprehensive Plan/Land Use Map.	This area is classified as Redevelopment Cluster. Single Family Residential is a typical land use recommended in the Land Use Plan.	
(b) Consistency of the proposal with the purpose of Chapter 117-Zoning.	The proposal will achieve consistency with the purpose of Chapter 117.	
(c) Compatibility of the proposal with the zoning, uses and character of the surrounding area.	The area already has several single-family residential houses.	
(d) Suitability of the subject property for the uses to which it has been restricted without the proposed zoning map amendment.	There are office spaces in the area. This lot has remained undeveloped.	
(e) Extent to which approval of the proposed rezoning will detrimentally affect nearby property including, but not limited to, any impact on property value, traffic, drainage, visual, odor, noise, light, vibration, hours of use/operation and any restriction to the normal and customary use of the affected property.	This request will not be detrimental to the surrounding area.	
(f) Impact of the proposed development on community facilities and services, including those related to utilities, streets, drainage, parks, open space, fire, police, and emergency medical services.	Minimal impact if rezoned.
