## APPROVAL CRITERIA- CHAPTER 117 – AMENDMENTS

The criteria for approval of a rezoning are set out below. Not all of the criteria must be given equal consideration by the MAPC or City Council in reaching a decision. The criteria to be considered shall include, but not be limited to the following:

Criteria	Explanations and Findings	Comply Y/N
(a) Consistency of the proposal with the Comprehensive Plan/Land Use Map.	This area is classified as a High Intensity Growth Sector. A commercial building would be consistent with the Land Use Plan.	
(b) Consistency of the proposal with the purpose of Chapter 117-Zoning.	The proposal will achieve consistency with the purpose of Chapter 117.	
(c) Compatibility of the proposal with the zoning, uses and character of the surrounding area.	This area of Southwest Drive is a commercial area.	
(d) Suitability of the subject property for the uses to which it has been restricted without the proposed zoning map amendment.	There are other R-1 lots to the North of this location. To the South, there are C-3 and C-3 LUO lots. This would be better suited for Commercial Development.	
(e) Extent to which approval of the proposed rezoning will detrimentally affect nearby property including, but not limited to, any impact on property value, traffic, drainage, visual, odor, noise, light, vibration, hours of use/operation and any restriction to the normal and customary use of the affected property.	The development could cause an increase in traffic. Proper buffer controls should be used to shield the single-family housing from the commercial development.	
(f) Impact of the proposed development on community facilities and services, including those related to utilities, streets, drainage, parks, open space, fire, police, and emergency medical services.	Minimal impact if rezoned.	

## STAFF FINDINGS

### APPLICANT'S PURPOSE:

The applicant feels like the rezoning would allow them to develop the property at its highest and best use.

### Chapter 117 of the City Code of Ordinances defines C-3 General Commercial District:

**C-3 General Commercial District:** The purpose of this district is to provide appropriate locations for commercial and retail uses, which are convenient and serve the needs of the traveling public. The district also provides locations for limited amounts of merchandise, equipment and material being offered for retail sale that are more suitable for storage and display outside the confines of an enclosed structure. Appropriate locations for this district are along heavily traveled arterial streets. Development of grouping of facilities shall be encouraged, as opposed to less desirable strip commercial.
