RE: Application for Portable Classrooms for Nettleton School District

The Nettleton School District is making application for portable classrooms at four of its campuses. Fox Meadow Intermediate Center, Fox Meadow Elementary, University Heights Elementary and the Jr. High School Campus. Due to increasing student growth the district is having to relieve overcrowding at these locations. The portables will function as regular classrooms and serve the students educational needs for approximately two years.

The buildings are 24'X64' box size and contain two classrooms. I have enclosed descriptions and specifications for these portables.

Thank you,

Ron Cooper
