Subject: RE: Public Services

Good Morning Mayor.

I chair the Public Services Committee. I think you do a good job relating airport info in the council meetings. Since the Public Services Committee meetings are once every 3 months, I would like that to be the opportunity to have the P&R, Transportation, and Airport give a brief overview of some of the successes they've had over the past 3 months; what projects they are currently working on and what they hope to accomplish during the next 3 – 6 months. They can voice any challenges or opportunities at that time as well.

It don't need to be a special called meeting. I just wanted the leaders of those departments to be ready for September's meeting with that information and to get those items on the agenda for September.

Thanks,
Bobby
