Councilmember David McClain said, number one, I am excited to see these two resolutions that have the city applying for grant money for trails. How much of Southside Park will this amount cover? Do we have an estimated amount? Mayor Harold Copenhagen said, I can answer that question. It's basically a mile and it will address the entire south side of the facility. There is the road that goes from Caraway Road all the way to Stadium and it will be on the south end of the structure. It is a mile pathway. Councilmember David McClain responded, perfect, that answers my second question. Thank you.

Councilmember David McClain said, we already had some funds. Would this money that we are applying for go towards the design and all that or is this the actual construction that we are applying for? I really like the idea of connecting University Heights to the campus. I think it will be awesome. Parks Director Danny Kapales said, I may not be the best one to answer this question, but basically these funds are to go with the funds we currently have so that we can build this plan out completely. The original design and the money that we received were not enough to build this trail out the way it is designed to make a complete road through that area. This grant will add to it so that we will be able to complete that trail from Red Wolf all the way to University Heights.
