Mr. Phillips made a motion to approve the request subject to: 1) 40' of right of way being granted from the centerline of Moore Road; 2) adding landscaping to the site; 3) submitting the minor plat of the property; 4) sizing and installing drainage pipe under the drives; 5) specifying the type of fencing; 6) submitting a revised site plan to City Staff showing all the stipulated changes. The motion was seconded by Mr. Damron. Voting was 8 in favor, 0 opposed, REQUEST APPROVED WITH STIPULATIONS.

#8 PUD99-2 Sage Meadows, Inc. requested preliminary approval of plans for a Residential Planned Unit Development containing 65 units on 65 lots on 11.43 acres. The general location of the property is on the east side of Old Greensboro Road, north of Sage Meadows Boulevard, south of Macedonia Road and west of Western Gales Drive.

A trustee from a nearby church expressed opposition to the dense development stating high volume and high speed traffic on Old Greensboro Road as the reason. He wanted to know what expansion plans were in progress for the road which is a Arkansas State Highway at this time.

Mr. Krennerich made a motion to grant preliminary approval subject to: 1) compliance with the City Engineer comments contained in the staff report; 2) 6' privacy fencing along the east line of the development; 3) seeking the AHTD to widen the road and possibly install left turn lanes and signalization of the intersection; 4) installation of sidewalks along the street inside the development; 5) provide parking between the house and sidewalk to not interfere with sidewalks. The motion was seconded by Mr. Damron. Voting was 8 in favor, 0 opposed, REQUEST APPROVED WITH STIPULATIONS.

#9 SP99-17 DDC Development requested approval of site development plans for the Elk Park Addition. The development contains 6 buildings on four lots. The general location of the property is on the northwest corner of Southwest Drive and Alexander Drive.

Withdrawn prior to meeting.

Ms. Shaw made a motion to approve the request subject to the appropriately sized drainage pipe being installed in the new drainage easement, and showing the drainage easement on Lots 19, 20, 21 & 22. The owner is to proceed with the abandonment of the previously granted drainage easement. The motion was seconded by Mr. Gott. Voting was 8 in favor, 0 opposed, REQUEST APPROVED WITH STIPULATIONS.

#11 FP99-11 Todd Jackson and Roy Milner requested final approval of subdivision plans for Woodsprings Estates Phase V containing 34 lots on 22 acres. The general location of the property is on the north side of Woodsprings Road, east of Casey Springs Road.

There was much discussion regarding the finalization of the drainage plans both on site and off site which were both determined to be incomplete. Inappropriate notes on the plats, lack of approved street names, lack of owner's signatures, incomplete drainage details on the detention pond and downstream drainage and a curve radius of 200' were discussed at length prior to a motion.

A motion to table made by Mr. Pitts and seconded by Ms. Shaw was withdrawn prior to the vote. It was noted that the item was tabled at the July meeting and a motion to untable the item and bring it up for discussion had not been made. It was stated that this was the third time the plans had been reviewed for final and were still incomplete. A motion to untable the item was not made and therefore no action taken. George Hamman, Engineer for the owners, was encouraged to get the plans completed and resubmit and further that incomplete plans would not be placed on the next agenda.

#12 PP99-12 CJH Land Development, Inc. requested preliminary approval of subdivision plans for Richardson Addition containing 6 lots on 2.29 acres. The general location of the property is on the east side of Richardson Road, south of Kristal Drive.

There was much discussion about the property being located 100% in the flood plain and partially in the floodway. Notes on the plans indicate approximate boundaries of the floodway.

A motion to grant preliminary approval was made by Ms. Shaw subject to the following stipulations:

1. Correct the floodway notations on the plat to reflect the actual floodway
2. On site ground markings and staking be installed to locate the floodway and flood plain so that this

developer and potential builders will know what area is not to be disturbed

3. Compliance with the engineer comments contained in the staff report

4. Selecting a new street name for the short cul-de-sac that doesn't conflict with other street names

5. Completing all infrastructure before requesting final approval of the subdivision due to the short length of the street. Ms. Shaw stated that with only six lots being platted, it would lend itself to permits being purchased and homes built and occupied prior to construction of the street. Several instances of incomplete street improvements were noted.

#13 MP99-25 Kent Arnold requested approval of a minor plat containing 15 lots on 12.09 acres. The general location of the property is on the east side of Caraway Road, north of Glenn Place.

Withdrawn prior to meeting.

#14 RP99-42 Phillips Investments, Inc. requested approval of a replat of Lot 5 of the Replat of Lot 3 of Calvary Chapel Addition. The general location of the property is on the south side of Peabody Drive, east of Stadium Blvd.

Ms. Shaw made a motion to approve the request subject to the street improvements being completed adjacent to Lots 5 & 6. The motion was seconded by Mr. Krennerich. Voting was 7 in favor, 1 abstaining, REQUEST APPROVED WITH STIPULATION.

#15 PUD99-1 Affhouse, LLC, requested preliminary approval of plans for a Residential Planned Unit Development containing 268 units, in 45 buildings on 30.21 acres. The property is located on the east side of Caraway Road, south of Sunnymeadow Drive and is an extension of Caprice Parkway from Caraway Road to Malibu Drive.

A conceptual nod of approval was granted based on new drawings submitted at the meeting. Preliminary drawings are to be reviewed in September.
