He explained between January 12, 2001, and March 4, 2003, several contracts had been entered into, with the most recent being for \$90,500 entered into in November 2005. Mr. Alan Young, Information Systems Director explained he had compiled the information and provided it to Mr. Brian Wadley, who was not in attendance. Mr. Young explained part of the \$90,500 contract had been paid, but he was unsure how much. Councilman Farmer explained they want to make sure the City was not overlapping on any of the work currently being contracted. He questioned Mr. Young about the status of the eight (8) tasks listed in the first contract with Fisher and Arnold. Councilman Farmer stated the eighth task was amended due to the drainage study. Mr. Young confirmed that all eight tasks had been completed and were operational. Councilman Farmer asked about the March 4, 2003 contract listing seven (7) tasks, one of which was to determine a list of all illegal discharges. He stated under the current contract being negotiated, it too deals with illegal discharges in conjunction with pipe inventory. Mr. Claude Martin stated it was his understanding that it had been negotiated out of the Fisher and Arnold contract, but was not sure. Councilman Farmer stated it appears that the City has paid as much as was contracted with exception to the estimated \$40,000 which was contracted out with Carter Burgess for the drainage study.
