Councilman Street moved, seconded by Councilman Ashley for the adoption of a resolution accepting the recommendation of the APERMA Legal Defense Group to resolve the matter of the resignation of Paul Copeland. Discussion followed with Councilman Farmer asking if the resolution had been prepared by Attorney Ralph Ohm. Mr. Wadley indicated Mr. Ohm had not prepared the resolution. Councilman Farmer responded saying the resolution calls the action a "resignation" and authorizes money to be paid to the resigning employee. He contended this was not a precedence the city council should be setting. Councilman Farmer further contended the only way the City Council should be allowed to proceed with negotiations for paying a severance package is to determine this was a "termination" not a "resignation". Several council members concurred with Councilman Farmer's statement. Councilman Farmer suggested the City Council find that Mr. Paul Copeland was terminated from his position. Councilman Hargis stated the action taken was between the Mayor and a department head. He further contended it was a recommendation from Attorney Ralph Ohm, and he personally had received an email from Mr. Paul Copeland in keeping with the proposed resolution. Councilman Farmer explained he did not disagree with Councilman Hargis, but if the resolution is adopted the City Council is recognizing the action taken as a resignation. Councilman Province stated the City Council was told Attorney Ohm's opinion would be given to them, but he did not consider this resolution as Mr. Ohm's legal opinion, and stated it would be a mistake to take action at this time. Councilman Province went on to say he has lost confidence with the leadership of the council over this issue, and in his opinion the issue has not been resolved. Councilman Moore concurred with Councilman Farmer, to find Mr. Paul Copeland was terminated and authorize Attorney Ohm to spend up to \$5,000.00 to settle the case. Councilman Hargis argued Mayor Formon has gone on record saying this was a resignation rather than a termination, to which Councilman Dover responded saying the City Council should not pay for someone

who resigns. Councilman Dover questioned if the City Council has the responsibility to decide if this was a termination or a resignation. Councilman Farmer explained the City Council has the power to over ride a termination, but not a resignation. City Attorney Crego recommended amending the resolution to use the term “employment status” in place of “resignation” or “termination”. He further stated given the fact that Mayor Formon is calling the action a resignation, but Dr. Copeland contends it was a termination, he did not feel the City Council had the ability to make a determination. Attorney Crego did explain however, the City Council does have the ability to reject the resolution until the issue of termination versus resignation is resolved. Councilman Johnson agreed with statements made by Councilman Province, that council members were told Attorney Ohm’s decisions would be provided to them by Mayor Formon, but in the absence of Mayor Formon he could not approve the resolution. After discussion regarding procedure Councilman Street withdrew his motion, and Councilman Ashley withdrew his second with no opposition being voiced by members of the City Council for the withdrawal. Presiding Officer, Perrin questioned how council members wished to proceed. Councilman Hargis expressed concern for delaying the matter another two weeks and suggested amending the resolution to read “employment status” and giving Attorney Ohm the leverage to proceed. Councilman Dover responded saying if Mayor Formon says it is a resignation, then he takes the Mayor at his word. Councilwoman Furr contended the City Council did not start this, and did not know how they could resolve the matter since the Council does not know what happened. Councilman Farmer explained in speaking with Attorney Ohm, Mr. Ohm’s concern was getting the potential litigation resolved, and has had this concern for several weeks. Councilman Farmer moved, seconded by Councilman Hargis to give authority to Ralph Ohm to negotiate the settlement of this for \$5,000.00 with the condition that no future litigation will occur against the City based on a termination. A voice vote was taken resulting in all members voting aye. Those members were: Farmer, Province, Hargis, Moore, Williams, Perrin, Street, Johnson, Dover, Furr, McCall, and Ashley.

Fire Chief Aaron Keller introduced the newest member of the Jonesboro Fire Department, “Sparky” a robot used as a training tool for fire safety.

Councilman Farmer reiterated comments made by Councilman McCall in a previous meeting, regarding the City Council “Rules and Procedures”. It was explained that if a Department Head has a problem with the rules and procedures, rather than complaining about it, they should contact a committee member so it may be addressed. He explained committee members need to know what the problem is before it can be resolved. Councilman Farmer further stated the Rules and Procedures were in place for a reason-to provide accountability.

Councilman Farmer informed City Council members that the Public Works Committee had made some recommendations regarding South School sidewalks for improved safety and access and would be coming before the City Council for a decision. He also reported the committee made recommendations and heard reports on: condemnation of a couple of homes for an area detention pond, the methane gas situation at the landfill, a report on the Justice Complex, a recommendation on ADA to meet the obligation under the court order meeting all the curb cuts setting those as a priority rather than building more sidewalks, progress report on the closing of the landfill.

Councilman Farmer explained so much of the time only a portion of the Council knows the business being discussed by other committees and suggested consideration for a Committee of the Whole to meet twice a month.

Under “Public Comment” Ms. Ann Patton at 2117 Harrisburg Road addressed the City Council regarding items being pulled from the MAPC agenda only to be placed back on the agenda. She stated she had been informed that the Mayor’s Office does not control the MAPC but questioned what could be done to correct this problem.

With no further business, Councilman Ashley moved, seconded by Councilman Street to adjourn the meeting. A voice vote was taken resulting in all members voting aye. Those members were: Farmer, Province, Hargis, Moore, Williams, Perrin, Street, Johnson, Dover, Furr, McCall, and Ashley.
