Mr. Joel Gardner gave a report regarding past operations and the financial status of the JETS Program. He stated the month of August was their third month of ridership and in the first 12 days there were 1,064 riders with 1,024 riders for the month of July. He stated they were down 64 riders for the month of July compared to June but explained there was one less operating day in the month of July. Mr. Gardner reported in July they used 3,267 gallons of fuel and currently 9,352 gallons to date. He explained the audio visual systems, the AVL's, and the signage for the green line were currently being installed. He explained in an effort to increase ridership awareness they were providing shuttle services for the Jonesboro Public Schools and ASU during open house. Mr. Gardner reported the 2007 Goals for the JETS Program was \$1,178,894 operating capital with 80% of the money in the fixed route system and 20% of the money in the para-transit system. He further stated the community must provide \$521,617 in matching funds with \$130,000 coming from the City, and \$20,000 (4

th quarter) from AHTD in discretionary funds with other funds coming from ridership and advertising. Mr. Gardner stated they were still falling short in the community matching funds and recommended tapping into the funds for advertising, by doing the advertising in house. Councilman Moore questioned the total number of rides for the month of July. Mr. Gardner responded there were 3,623 riders for the month of July which includes the 1,478 that rode free on the 4th of July. He further explained the 1, 478 riders were not counted in the reporting numbers from month to month, but are being counted when reporting to AHTD and FTA explaining it can be used as an in kind service. Mr. Gardner concurred with Councilman Moore that on an average, 12 riders per bus per day or an average of 1.5 riders per day were riding the buses. He stated the reason ridership was so low was because there was still a lot of work to do in marketing, and they have not been operational during a regular school session. He stated if all buses were wrapped and all panels sold the advertising revenue would be \$300,800. He explained JETS has paid out \$ 33,370.60 to Harpole Phillips Advertising in the last 3 months which translates into \$66,000 for 50/50 matching funds or \$150,000 in 80/20 matching funds. He explained in the first six months he needed the advertising help, but now it could be done by an additional employee with expertise in sales, and it would not affect the yearly \$130,000 being supplied by the City of Jonesboro. Councilman McCall explained the Public Services Committee accepted Mr. Gardner's recommendation to terminate the contract with Harpole Phillips and to do the advertising in house using the funds saved from the advertising line item. Mayor Formon questioned if the gap in the community matching funds would be filled, by doing the advertising in house, given the need to hire an additional employee. Mr. Gardner confirmed it would, bringing them up to \$430,000 with only a \$411,617 expense. Councilman Farmer stated it was his understanding there were firm commitments for wrapping three of the buses early on. Mr. Gardner confirmed there was a commitment with A.S.U. and Jennus Burton early on that fell through. Based on Mr. Gardner's recommendation, Councilwoman Williams moved, seconded by Councilman Farmer to cancel the contract with Harpole Phillips Advertising and to take whatever steps necessary to handle the advertising in house. A voice vote was taken resulting in all members voting aye. Those members were: Farmer, Province, Hargis, Moore, Williams, Street, Johnson, Dover, Furr, McCall and Ashley.

At the request of Councilwoman Williams, Police Chief Yates reported this year was the first time in ten years that violent crime has increased nationwide. He reported there had been four homicides in the north part of Jonesboro and they had done a number of saturation patrols and ongoing operations in the area as well as other parts of Jonesboro. He explained the most effective way to address violent crime is to keep abreast of the drug activities which the Police Department will continue to do with the help of the community.

Councilman McCall moved, seconded by Councilman Moore to suspend the rules and place an ordinance on the agenda which had been approved by the Public Safety Committee but had missed the agenda deadline.
