Councilman Tate stated that the Engineering Department had delivered a report to the Mayor's Office today at 3:00 p.m., regarding the results of the ditch paving done by Brand Construction and Fred Barnett. Mr. Tate stated he would review the report with City Attorney, Phillip Crego before bringing it to the Street Committee. He requested the full council attendance in order to determine which direction should be taken. Mayor Brodell stated he would be involved with the investigation as well as the Street Committee.

Councilman McCall requested a written statement providing the following information prior to the Street Committee meeting

mentioned by Councilman Tate:

(1) Why the ditch project was not turned over to the engineering department? Mr. McCall pointed out that state law requires inspection of projects exceeding \$25,000.00, and the ditch project was well over that specified amount.

(2) Why were no work specifications provided for the project by the City of Jonesboro?

(3) Why a ditch project totaling over \$400,000.00 was not brought before the Street Committee?

(4) Plans to prevent this from happening in the future.

Mayor Brodell responded saying if Councilman McCall would put his questions in writing he would provide the answers.

Councilman Moore stated the Street Committee has the same concerns expressed by Councilman McCall. He explained additional work and effort has been done by the Street Committee to address the situation and thanked Councilman McCall for his concern.

With no further business, the meeting was adjourned.
