Mr. Tilton made a motion to approve the rezoning with the stipulation that the developed property would have a 60' buffer zone along the west side of said property from Lot 3 to Lot 16, block 'B' of the McCarty Addition. The buffer zone shall be a permanent easement (not used as parking or building use) maintained by the property owner. The design of the buffer zone will be reviewed by the MAPC at the time a site development plan is submitted. Mr. Gott seconded the motion.

Mr. Cooper expressed his disappointment that the citizens were not advised that the meeting would be recorded by the recorder. He also expressed his concern for the preservation, maintenance, and beautification of the buffer zone.

Mr. Ball also expressed his disappointment of the fact that the citizens were not fully informed about the meeting and unable to adequately prepare themselves. Likewise, he expressed his concern for the maintenance, preservation and beautification of the buffer zone. He also stated, for the record, that the MAPC is asking for a legal agreement between the City and The property owners to establish that this buffer zone is a non-useable easement (for buildings, street or parking area).
