Animal Control has a need for a storage building to house their freezers. This wasn't in the budget, but they did have in the budget \$3560.00 for an automatic watering system for the animals that will not work or be purchase. They plan to divert the money for the automatic watering to the storage building purchase.

We weren't sure if this needed to come before the Public Safety Committee, but decided to place it on the agenda to be looked at.

Lt. Roger Morphis
