Title: CONCEPTUAL REVIEW: Elizabeth Lane

George Hamman of Civilogic on behalf of Jackson Innovations, Inc. is requesting MAPC to do a conceptual review on the southern 300 ft of land on the west side of Elizabeth Lane south of Prospect Road where they want to create 5 60 ft. lots with only constructing a street with typical 26 ft. of pavement, but does not want to install curb and gutter and after the east side of the road is developed, the owner can complete the curb and gutter on both sides. This will include sidewalk on the west side of Elizabeth Lane.
